

刪除行事曆

1. 點選左側欲刪除之行事曆，點選【刪除】。

The screenshot shows the '行事曆' (Calendar) application interface. On the left, there is a sidebar with a list of calendars: '行事曆', '生日', '測試行事曆', and '其他行事曆'. The '生日' calendar is highlighted in green. A context menu is open over the '生日' calendar, with the '刪除' (Delete) option selected. A callout box points to the '生日' label in the top right of the calendar view, stating: '若只是關閉該行事曆的顯示，請將滑鼠移至上方標籤，按下 X 即可關閉。' (If you just want to close the display of this calendar, move the mouse to the label above, and press X to close.) Another callout box points to the '刪除' option in the context menu, stating: '滑鼠右鍵點選欲刪除的行事曆，點選【刪除】。' (Right-click the calendar you want to delete, and click [Delete].)

2. 跳出確認視窗，請按【是】
